

Express Generator Trailer

500 Gallons

500 Gallon Express Generator Trailer

Introducing the Express Generator Trailer, an essential solution for delivering water and power to oil drilling or construction sites, catering to your mobile office and RV needs.

This innovative trailer includes an on-demand pressurized water system, capable of supplying water to two offices or RVs simultaneously. Powered by the Wacker Neuson G14 generator, it offers 13.5 kW of power output along with a 60 Amp capacity.

Equipped with a 240-gallon diesel tank, the DOT industrial trailer ensures uninterrupted operation of the generator for up to 180 hours under prime load conditions.

Whether you require water, power, or both, this trailer proves its worth.

Features
