Powerblanket Hot Boxes efficiently heat temperature sensitive materials such as paints, roofing materials, chemicals, epoxies, resins, equipment, and pallets of any material. Easily moved from job to job, hot boxes are ideal for cold weather storage, freeze protection, transporting, job site heating, remote location use, and winter roofing.

**BULK MATERIAL WARMERS**

**PROTECT**
Preserve temperature sensitive materials

**EASY INSTALL**
Quickly and effortlessly install the compact portable design

**DIRECT HEAT**
Localize heat and save money by not heating a warehouse or building

**EFFICIENT**
Lower energy-related costs with the highly efficient design

### OPTIONS AVAILABLE

**POWERBLANKET LITE HOTBOX**
- 2 sizes available: Fits 40”x48” or 36”x48” pallets

- A larger footprint (Fits 48” x 48” pallet)
- An internal steel frame
- The highest wattage (1440 Watts)
- A controller for precise temperature regulation

---

**VERN FIEHLER, OF QUICK ROAD REPAIR IN ALASKA**

Vern Fiehler, of Quick Road Repair in Alaska, saves money by keeping his product from overheating, which is what happened with his previous method of heating. Vern met with the field maintenance crew of the Juneau Alaska International Airport to demonstrate his product, Instant Road Repair (IRR). For his demonstration, he tried to bring IRR up to a workable temperature using a forced air ceramic heater. During his presentation the product did not perform well because his product overheated 40°F / 22°C above the maximum recommended temperature. That not only cost him the entire pallet of material but he was also embarrassed. Since then, Vern uses the Powerblanket Hot Box.

*Heat circulation results can vary. For more precise temperature control a circulation fan is recommended.*
CHANGE YOUR WINTER ROOFING EXPERIENCE
WITH A POWERBLANKET HOT BOX

- Keep roofing materials warm.
- Prevent tools and equipment from freezing.
- Stay on track
- Save money by preserving critical materials
- Work all season long
