Water Storage Tanks | Rain Harvesting Kits

THIS IS ENDURAPLAS®

SUPERIOR LIQUID MANAGEMENT EQUIPMENT

At Enduraplas® we specialize in manufacturing products that help you manage your liquid better. Our large range of liquid storage tanks, tank trailers, spray equipment and water storage solutions are built to last much longer than the industry norm. Using decades of development and research, exceptional design, experience and a relentless passion to innovate, we've made products with your application in mind. Simply put: We know what works.

BUILT IN AMERICA. BUILT TO PERFORM.

Enduraplas® products are proudly built in the United States from premium components like quality polyethylene. This guarantees unmatched durability that has consistently outperformed. Since 2003 our liquid management tanks have been built with thicker walls and superior poly materials. Rigorously testing America's strongest tanks has ensured long-lasting durability. Engineered for Endurance® is not just a statement— it's a reality.

ENDURAPLAS ADVANTAGE

ENGINEERED FOR ENDURANCE®

At Enduraplas® the success of our products is measured not at one particular moment but at every step throughout the life of the product. To produce something exceptional means to be exceptional in all aspects, from conception to creation to implementation and beyond.

The Enduraplas Advantage® speaks to the quality and integrity that pervades every step of the product development process. At every phase of development, Enduraplas® stands out from the competition. Our products are designed with a higher level of attention to engineered excellence. They are produced with higher quality parts and components. And they last longer in real world applications, where it matters most, which means less downtime, less money spent on repairs, and greater productivity. **We call it the Enduraplas Advantage®.**

The message is simple but profound. An advantage isn't something that just happens, but rather it is something that is created through a higher attention to detail and a greater investment in value. Enduraplas Advantage® begins with an idea and ends with a product that outperforms and outlasts the competition.

ENDURAPLAS ADVANTAGE

FLAT-SPOT™ DORMER

This tank is built with extra heavy-duty spots for plumbing extra tank fittings.

RIBBED-WALL™ STRUCTURE

The ribs act like belts around the tank, keeping it in shape. This reduces bulging.

COMPOUND-COLOR™ INGREDIENTS

The tank color is mixed with high density polyethylene using a high-pressure extrusion process. This provides the optimum color distribution to allow even lighter colors to stop light penetration. This process reduces the amount of color pigment, making the poly stronger.

STRONG-X™ ROOF DESIGN

The beefed-up roof structure with molded-in truss-like supports eliminates collapsing in the heat of the day.

ANCHOR-POINT™ LUGS

Four hefty built-in lifting and tie-down points at each corner make it easy to handle.

LIGHT-BLOCK™ TECHNOLOGY

Algae needs light to grow. This algae-resistant material keeps the sunlight out and the water pure.

DRINK-SAFE™ MATERIAL

The resin used to build the tank is FDA approved, keeping the water safe to drink.

HOW WE STOP ALGAE GROWTH

If light is coming through the sidewall or roof of a water tank, algae will grow. To stop algae growth and keep water pure, we introduced LIGHT-BLOCK™ technology. LIGHT-BLOCK™ technology uses superior raw material to stop light penetration— even on lighter colored tanks.

See more details on page 7.

COMPANY INFORMATION

WARRANTY

You can depend on your Enduraplas® water storage tanks to work as hard as you do, and for Enduraplas® to stand behind its equipment. We now offer an industry leading warranty because we can. Visit www.EnduraplasWarranty.com for more information.

	Standard Warranty	Extended Warranty
Tanks	5 Years	*10 Years
Parts & Accessories	**1 Year	-

*Double your tank warranty by completing your warranty registration. Please contact your dealer for complete terms & conditions.

**Unless expressly stated that they have an extended original manufacturer warranty.

THE BRAND

The name Enduraplas® originated in 2003. Since then, the brand has spread quickly throughout USA and Canada to a point where it is a common name heard in the agriculture industry. Products with the Enduraplas® brand are recognized as high quality and premium in the markets we serve.

The following are registered (®) or unregistered (™) trademarks of Enduraplas® LLC:

Enduraplas®, Engineered for Endurance®, STRONG-X™, RIBBED-WALL™, ANCHOR-POINT™, SINGLE-PIECE™, FLAT-SPOT™, LIGHT-BLOCK™, COMPOUND-COLOR™, DRINK-SAFE™.

LEGAL NOTICE

Enduraplas® reserves the right to change specifications, design and price of the products described in this literature without notice. Images used in this literature are pictured for display purposes only. Warranty of all products is only applicable when the product is used in accord with the operator's manual. Improper use of any tank or accessory may cause serious or fatal injury. Read, understand and follow carefully the operator's manual before using these products.

FREIGHT
