Water Fire Sprayers

This water fire sprayer is designed to be your ideal fire control unit with a very affordable price tag. It is a must for every fire department and farmer to have a backup like this included in their fire emergency plan. Features an integrated quick-fill system and a high-flow performing fire nozzle. This water fire sprayer can slide into the back of your pickup and save you valuable space while having enough water on hand.

Foam Fire Sprayers

The foam fire sprayer is the ultimate beast for suppressing a fire in record amount of time. With its use of foam, it will suppress a fire up to four times faster than water. The foam helps create long-lasting fire breaks. Also comes with a built-in foam tank and foam gauge that lets you control how much foam you dispense with the twist of a knob.

Features & Benefits

- Solid wall tank construction
- Poly flex hose reel
- Anchor point tie-down slots
- Power head water pump
- Easy start Honda engine
- Time saving fork points
