

Skid Sprayers

Skid Sprayer

These high-pressure, commercial spray rigs are ideal for pest control, spraying lawns, trees, maintaining parks and gardens and spreading insecticides across large areas. Our low-profile skid sprayers are used to spray herbicides and pesticides and can be mounted in enclosed body trucks or on top of your truck bed.

Quality

The space-saving design allows the operator to slide the sprayer between the vehicle wheel wells – this makes installation quick and simple. Choose your preferred tank size, pump type and hose reel type and start completing spraying contracts faster.

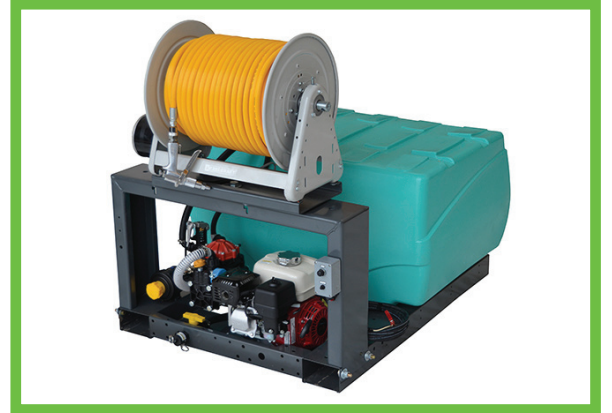

The electric hose reels feature a breakthrough swivel mount design – no more tangled rewinds!

This skid sprayer is ideal for small and large landscape companies looking for a quicker and more cost-effective tool. This sprayer features built-in fork points for easier maneuvering, a reliable Honda® engine and a 100% polyethylene hose reel that won't crack or bend.

This skid sprayer features a smart electric reel to help you wind and unwind hose more easily and complete spraying jobs faster. This sprayer also includes built-in fork points for easier maneuvering and a reliable Honda® engine.

This skid sprayer features two smart electric reels to help you and your co-worker spray more easily and complete jobs faster. This sprayer includes built-in fork points for easier maneuvering and a reliable Honda® engine.

This skid sprayer is perfect for spraying tall trees and shrubs. This sprayer features built-in fork points for easier maneuvering, a high-pressure mist/jet gun, four times the built-in tie-down points, and a 100% polyethylene hose reel that won't crack or bend.
