

Tractor Sprayer

Tractor Sprayers

These 3-point PTO sprayers are ideal for applying insecticides, herbicides, pesticides and fungicides on pastures and fields. Built in America, our tractor-mount sprayers are engineered to last much longer than 'economy' sprayers purchased from big box stores. These sprayers are designed to quickly hitch to your tractor and include a unique counter-balanced tank to bring the weight as close to the rear wheels as possible.

Specifications

Size (US Gallons)	200
Length	36"

Pressure (PSI)	300
Hose Length	15'
Spray Distance (Vert.)	27'
Spray Distance (Horiz.)	35'
Dry Weight (lbs)	290

Tractor Sprayer

Our three-point hitch sprayer has set a new standard with tractor spraying. While we included extra user-friendly features, we also thought about your safety by engineering a counter-balance tank. Easily monitor and change your boom spraying pressure directly from your seat and move your sprayer with ease.

Features & Benefits

- Built-in fresh water tank. Use it to flush out all plumbing lines to avoid mixing spray chemical.
- The filter at the base of the tank can be checked or cleaned without having to empty the entire tank.
- Includes an easy to reach lid.
- Quick connecting boom ports
- Integrated agitation mixes water with chemicals.
